### Main Configuration

Machine Model	ML-3015E
Laser Power	1500W
Control System	CYPCUT Control System
Laser Head	Laser Cutting Head with Auto Focus
Automatic Rail Lubrication	Automatic Rail Lubrication System
Dual Temperature Water Cooling System	Yes

### Technical

Working Area	1550 x 3050mm
X-axis Stroke	1550mm
Y-axis Stroke	3000mm
Z-axis Stroke	80mm
X/Y Positioning Accuracy	+/-0.03mm
X/Y Repositioning Accuracy	+/-0.02mm
Max Speed	40m/min
Max. Acceleration	0.8G
Motion System	Precision dual-gear rack drive
Max Loading Capacity	600kg
